**Bathroom surfaces from Caesarstone®**

Caesarstone® now brings fresh ideas and new levels of luxury, timeless elegance and functionality to the bathroom.

The recent introduction of six 13mm slab thickness options into the Classico Collection, including four of the popular selling marble inspired Supernatural designs now enable Caesarstone® slabs to be used in vertical applications such as bathroom wall panels.

Caesarstone® surfaces are not only perfect for bathroom and shower wall panels but also vanities, bath surrounds, inset shelving, shower recesses and window sills. Caesarstone's surfaces offer endless design possibilities to create different bathroom styles.

Our surfaces are non-porous, durable and resistant to stains, scratches, common household chemicals, mould and mildew making them ideal for wet areas delivering minimal maintenance to keep surfaces looking like new for years to come.

The large floor to ceiling panel size options allow for less joins, and especially allow the creation of clean minimal modern spaces.

To locate your nearest bathroom showroom, including Caesarstone’s own showrooms, simply go to “Where to View” on the Caesarstone® website and then select “Bathroom Wall Panels”, followed by suburb and colour.
